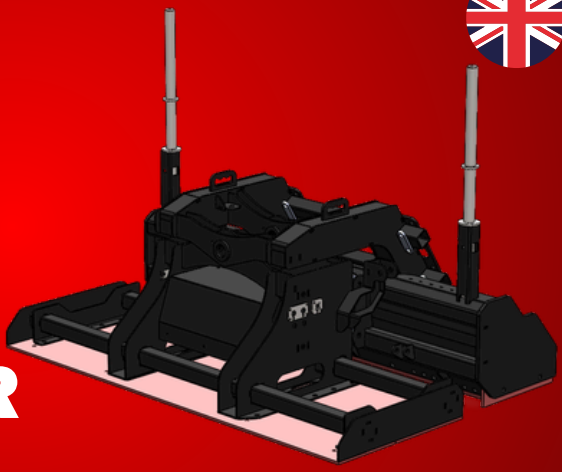
TDB CLASSIC LEVELLER



Are you looking for a reliable leveller that pairs perfectly with your loader or skid steer? In that case, the TDB Classic Leveller is the ideal choice!

What to expect?

The TDB Classic Leveller is designed without unnecessary fuss. Lightweight and straightforward in construction, it provides the essential functionality you need without unnecessary complexity. Wear parts are easy to replace, ensuring optimal performance at all times. All controls of the Leveller are neatly enclosed under a hood, offering both a clean appearance and practical protection for the mechanisms.

Budget-Proof
Affordable without compromising on quality.

Simple in design
No unnecessary bells and whistles, just pure functionality.

No hydraulic adjustments
No modifications to your machine's hydraulic controls.

Wear parts are reversible.
Optimal use of wear parts due to their reversibility.

Pressure plate for optimal compaction.
The perfect end result through optimal compaction.

The Leveller in real life
